In the afternoon you will learn Chakra Power Reflexology an original system of treating a client using the chakras, endocrine and nervous system to help unblock body armour that may have developed as a result of trauma, stress, illness or unfulfilled desires. You will learn a new original sequence, skills and techniques to apply a Chakra Power Reflexology treatment that works to unblock body armour from the inside out creating a profoundly deep level of relaxation, balance and wellbeing helping your client on a physical, emotional and energetic level. Power Reflexology can help support your client to assist them on their journey to recovery.

This is an original way of treating clients and developed by Louise Keet. This profoundly deep treatment can have a positive impact in helping clients move on in their physical, energetic or emotional recovery process.

We may survive trauma however some of us may not have moved on and formed a kind of armour to protect ourselves, not only from the blows of the outside world, but also from deep rooted emotional malaise. Unless this armour is unblocked on a deep energetic level it may manifest into illnesses or give rise to physical or emotional weaknesses. These new techniques and sequence will help address and re-harmonise the chakras and the physical and emotional affects this energetic disharmony may have caused your client. This year course includes treating for the continuing physical, emotional and energetic effects of long covid.

Power Reflexology is approved and recommended by the Association of Reflexologists and at the end of this skills day you will be awarded with a Diploma in Power Reflexology and gain 14 CPD points with the Association of Reflexologists if you are one of their members.
